

CLÉMENCE SCOTTEZ

Legal adviser specialised in data protection and information technology.

Clémence Scottez is a legal adviser for the complaint department of the French data protection authority (Commission nationale de l'informatique et des libertés). She's in charge of the complaints related to electronic commerce, information technology, insurance and real estate, as well as improving the international cooperation between data protection agencies within the framework of cross border handling of spam complaints.

A one-year experience in Mexico City working on international trade regulations and a later training in the corporate law department of an international company strengthened her expertise on cross border issues such as spam fighting. This experience was consolidated with a postgraduate degree in information technologies law from the University of Paris II - Panthéon Assas.
