

CALL FOR PAPERS

First Symposium of the Portuguese Committee of URSI

Radiocommunications – New paradigms and health impact

28th November 2007 - Lisbon, Portugal

The International Union of Radio Science (Union Radio-Scientifique Internationale), a non-governmental and non-profit organisation under the International Council for Science, is responsible for stimulating and co-ordinating, on an international basis, studies, research, applications, scientific exchange, and communication in the fields of radio science.

The Portuguese Committee of URSI has scheduled the first symposium to take place in Lisbon on the 28th November 2007, with the aim to promote the spread of scientific works in these areas and to stimulate the exchange of experiences between researchers (scientists), manufacturers and service providers.

We invite the interested parties to submit original scientific communications, in the areas identified as scientific subjects of the seminar, with special relevance to the work addressing the main subject.

Main subject of the Symposium (Lectures, articles and posters):

Radiocommunications – New paradigms and health impact

Other scientific subjects of the Symposium (Articles, small articles and posters):

- Electromagnetic Metrology
- Fields and waves: electromagnetic theory and applications
