Darko Ratkaj, ERO

CONFERENCE OBJECTIVES

The CEPT Conference is now expanding to cover a broad area of electronic communications and to facilitate fruitful dialogue between regulators and industry on topics of:

- forward-looking regulatory developments
- technological, market and other developments with potential impact on regulations.

The CEPT Conference is the only conference about telecom regulations organised by regulators themselves. It puts regulation in the fields of radio and non-radio telecoms into a single perspective.

TARGET AUDIENCE

Regulatory managers and decision makers from NRAs and industry, working in the fields of telecommunications policy, spectrum management, telecommunications licensing and standardisation.

EXHIBITIONS

Exhibitions and poster displays are planned throughout the conference.

REGISTRATION

Registration and hotel booking form is available on the ERO web site www.ero.dk/conference.

Registration fees are: € 1200

with a special fee: € 800 for delegates representing one of the 45 CEPT administrations

The registration fee covers attendance at workshops, 2 ½ days conference with lunches and coffee breaks, proceedings, exhibitions.
