LA RADIO-CIENCIA Y SUS APLICACIONES

www.ursi.es

Our aim

“Promotion of all activities in radio-science and its applications in Spanish from telecommunications to radio astronomy, acquisition of radar information about distant passive objects, studies of the radiation stimulated or spontaneously emitted by these objects, biological effects of electromagnetic radiation and active modification of objects by radio waves, within the spectrum from extremely low frequency to the optical domain.”

radio astronomy

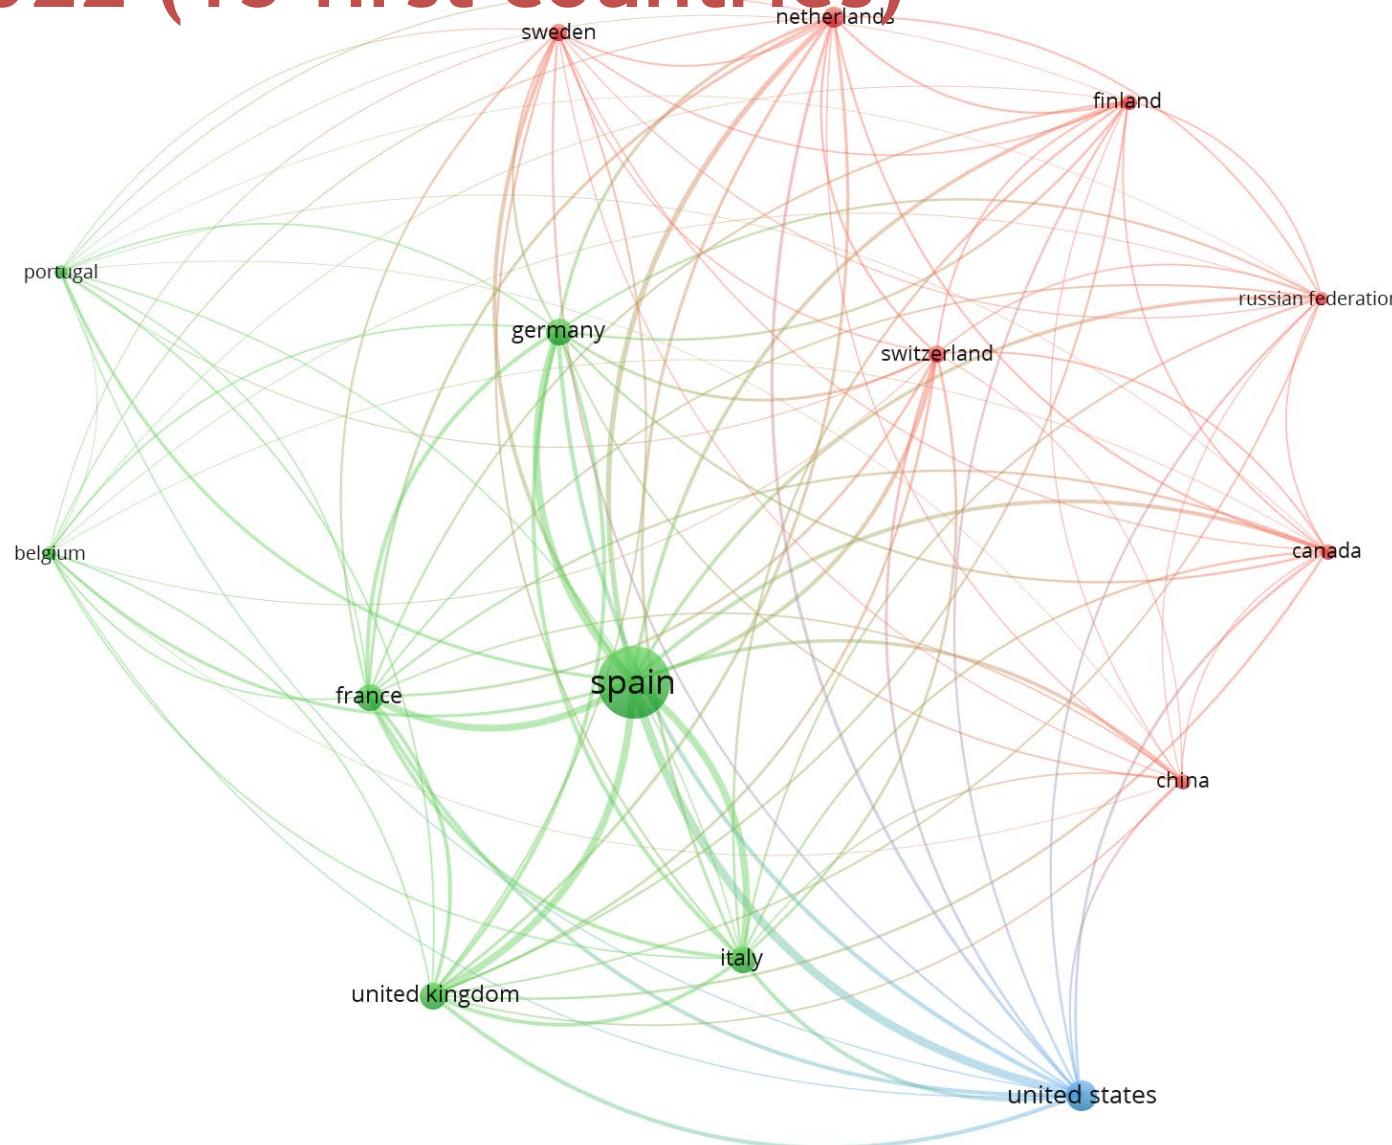

The diagram illustrates the interconnected nature of various topics in telecommunication and microwave photonics. The central concept is "5g mobile communication systems", which is connected to "global positioning system", "antennas", "radar", "antenna arrays", and "electric impedance". "Antennas" is further connected to "satellites", "iterative methods", "antenna phased arrays", "reflection", and "method of moments". "Wireless communications" is connected to "beamforming", "frequency bands", and "metamaterials". "Optimization" is connected to "microwave devices", "microwave circuits", and "permittivity". "Wireless networks" is connected to "radio communication", "beamforming", "frequency bands", and "metamaterials". "Mobile telecommunication systems" is connected to "microwave filters", "bandpass filters", and "permittivity". "Wireless telecommunication systems" is connected to "microwaves", "resonators", and "waveguides". "Communication systems" is connected to "telecommunication systems", "computer simulation", "power amplifiers", "millimeter waves", "ultra-wideband (uwb)", and "microwave circuits". "Telecommunication systems" is connected to "transmitters", "signal processing", "radio waves", "microwaves", and "microwave filters". "Network protocols" is connected to "telecommunication links", "signal to noise ratio", "microwave photonics", and "microwave filters". "Quality of service" is connected to "internet", "radio communication", "beamforming", "design", "microwave devices", and "microwave circuits". "Internet" is connected to "microwave photonics", "microwaves", "resonators", and "microwave filters".

Evolution of research topics: 1980-2022 (100 most cited keywords and when they appeared)

Evolution of research cooperation: 1980-2022 (15 first countries)

URSI 2023 Scientific programme

Main numbers: 177 accepted papers, 256 registrations (43% students)

9 Special Sessions:

- 5G/6G
- Antenas y dispositivos de RF basados en nuevas técnicas y tecnologías de fabricación
- Componentes pasivos para aplicaciones espaciales
- Metamateriales, metasuperficies y otras estructuras periódicas
- Network Digital Twin
- Nuevas tecnologías de antenas para aplicaciones de ondas milimétricas
- Reflectarrays, transmitarrays y estructuras alimentadas espacialmente
- Sistemas Radio de Ondas Milimétricas Terrestre y Espacial para el Futuro Ecosistema de Comunicaciones más allá de 5G
- Baja observabilidad: simulación y tecnologías para sensores (sesión patrocinada por INDRA)

Regular Sessions:

- Acústica
- Antenas
- Aplicaciones Biomédicas
- Aplicaciones Matemáticas: Modelado y Simulación
- Circuitos y Dispositivos Activos de Microondas
- Compatibilidad Electromagnética
- Componentes y Circuitos Pasivos de Microondas
- Comunicaciones Móviles e Inalámbricas
- Educación: Nuevas Tecnologías y Herramientas
- Electromagnetismo
- Fotónica y Comunicaciones Ópticas
- Metamateriales
- Procesado de Señal: Voz, Imagen y Datos
- Radar
- Radiación, Dispersión y Radiopropagación
- Radioastronomía
- Tecnología y Aplicaciones a Frecuencias de THz
- Telemática: IoT, interfaces de comunicación

About URSI Commissions

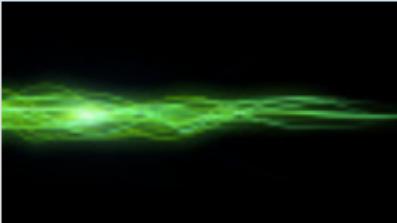

URSI is organised in various scientific commissions. They each cover a specific piece of the spectrum and associated technical applications. Per commission you will find key people, groups, working documents and much more!

Commission A

Electromagnetic
Metrology

Commission B

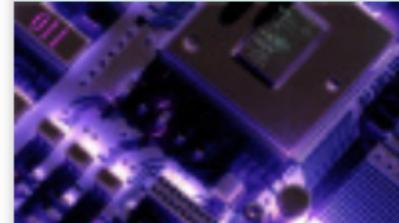

Fields and waves

Commission C

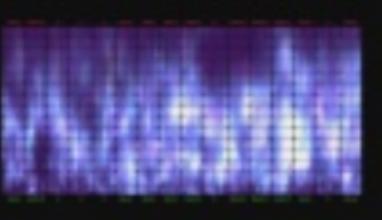

Radiocommunication
Systems and Signal
Processing

Commission D

Electronics and
Photonics

Commission E

Electromagnetic
Environment and
Interference

Commission F

Wave Propagation
and Remote
Sensing

Commission G

Ionospheric Radio
and Propagation

Commission H

Waves in Plasmas

Commission J

Radio Astronomy

Commission K

Electromagnetics
in Biology and
Medicine

Other activities: webinars MTT-S and URSI-Spain

MTT-S Webinars 2023 Schedule

Date	Webinar Topic	Speaker	Affiliation	Sponsors
10-Jan-2023	Digital Predistortion of Wireless Transmitters Using Machine Learning (Register now)	Anding Zhu	University College Dublin, Ireland	MTT-S
14-Feb-2023	RF Design for Sustainability (Register now)	Jasmin Grosinger	Graz University of Technoloav. Austria	MTT-S

14-Feb-2023	RF Design for Sustainability (Register now)	Jasmin Grosinger	Graz University of Technology, Austria	MTT-S
14-Mar-2023	Communicating Your Science to the Public: Mastering the 3MT, making your ideas stick (Register now)	Aline Eid, et al	Georgia Institute of Technology, USA	MTT-S
11-Apr-2023	Exploring the Universe: From Antarctica to the stars (Register now)	José V Siles	JPL	MTT-S & URSI-Spain
25-Apr-2023	Explorando el Universo: De Antártida a las estrellas (Spanish) (Register now)	José V Siles	JPL	MTT-S & URSI-Spain
09-May-2023	Tailoring Electromagnetic waves from RF to the IR: Theory and Applications (Register now)	Juan Sebastian Gomez Diaz	University of California at Davis	MTT-S & URSI-Spain
23-May-2023	Manipulando Ondas Electromagnéticas: Fundamentos Teóricos y Aplicaciones Prácticas (Spanish) (Register now)	Juan Sebastian Gomez Diaz	University of California at Davis	MTT-S & URSI-Spain
06-Jun-2023	Understanding Quantum Computing – Part 1	Abbas Omar	University of Magdeburg, Germany	MTT-S
11-Jul-2023	Understanding Quantum Computing – Part 2	Abbas Omar	University of Magdeburg, Germany	MTT-S
08-Aug-2023	High frequency, High-Q miniature resonator and filter technologies	Troy Olsson	University of Pennsylvania	MTT-S
12-Sept-2023	Mobile Material Characterization and Localization by Electromagnetic Sensing	Ilona Rolfs	Ruhr-University Bochum, Germany	MTT-S
10-Oct-2023	Applications of Microwaves in Medicine – A Review on the 70th Anniversary of MTT-S	J.-C. Chiao	Southern Methodist University	MTT-S
14-Nov-2023	Microwave Filter Synthesis and Tuning: what circuit and approximation theory can do for you	Fabien Seyfert	Inria	MTT-S
12-Dec-2023	Additively Manufactured Flexible Autonomous Reconfigurable Intelligent Surfaces (RIS), "smart" packaging structures and backscattering communication modules up to 5G/mmW frequencies	Manos Tentzeris	Georgia Institute of Technology	MTT-S

Other activities: Int. Workshop on Microw. Research and Applications

COMA-RUGA 2023

International Workshop on Microwave Research and Applications.

COMA-RUGA 2023 (Coma-ruga - Spain) will be held from Monday, July 3 to Friday, July 7, 2023

The official part of the Workshop will consist of 50 invited talks and one poster session. If you wish to contribute to the Workshop, please, send your abstract. Limited number of oral presentations are accepted.

Registration is required. All participants will be responsible for their travel and living expenses.

Topics of Interest Include:

- Interaction of microwaves with matter.
- General theory of microwave absorption and reflection.
- Microwave absorption by magnetic particles in a dielectric medium.
- Advanced materials for microwave absorption (carbon nanotubes, graphene, nanostructured and multilayered materials, metamaterials, etc.).
- Geometrical enhancement of microwave absorption.
- Microwave shielding and stealth technology.
- Applications of microwaves

Supported by

Facultat de Física. Universitat de Barcelona,
Spain

The International Union of Radio Science (Union Radio-Scientifique Internationale)- Spain

Organizers acknowledge financial support from
the U.S. Air Force Office of Scientific Research

Other activities: Conference on Precision Electromagnetic Measurements, Com. A

The collage illustrates URSI Spain's active engagement across multiple platforms:

- LinkedIn:** Shows the official page with 261 followers, featuring a banner for the 2023 General Assembly in Cáceres.
- X/Twitter:** Shows the official account (@ursi_spain) with 3 followers and 2 tweets. It describes itself as the "Cuenta oficial del comité nacional de la Unión Científica Internacional de Radio".
- Facebook:** Shows the official page (@ursi_spain) with 24 followers. It announces the "call for papers" for the 2023 General Assembly in Cáceres.
- YouTube:** Shows the official channel (@ursiespana) with 15 subscribers. It features a variety of video content, including plasma-related lectures, presentations from the 2023 assembly, and a tour of the city of Cáceres.

Muito obrigado! Thank you very much!
