Graystone Industries

The Cylons
Cybernetic Lifeform Node

U-87 Cybernetic Combat Unit
The First Cylon
Built on Caprica 56 years before the destruction of the Twelve Colonies by Graystone Industries as a robotic soldier and then as a worker. Treated like slaves, the machines revolt and try to kill their masters.

Cylon Centurion Model 0005
First Cylon War
U-87 change little during the war. The only visible difference with the original models is the addition of chrome skin plates.

Cylon Centurion Second Cylon War
During the 40 years elapsed since the first war the Centurion is changing. He is taller, more agile, faster and stronger. Its weaponry is built into his body and no longer needs a bayonet as he used his long sharp fingers as melee weapon.

Humanoid Cylon Second Cylon War
With the help of survivors from the 13th colony, the Cylons create organic humanoids and obtain the means to duplicate them.

All of this has happened before, and will happen again...

Pessoas são a mensagem?

As pessoas mudam a mensagem ou o seu sentido sempre que consideram que tal é necessário para atingir as suas metas de autonomia.
