If you offer any bundles of unregulated retail voice and SMS plus data roaming services for use in the EU/EEA (including tariffs that may be used both inside and outside the EU/EEA),
please describe them in the boxes below.
Please use a seperate box per tariff. You need only complete the lines that are applicable to the tariff in question.
This questionnaire applies to any post-pay or pre-pay tariffs, that is to say all residential and business tariffs except for "Special Corporate" tariffs.
"Special corporate" refers to an undertaking that has negotiated a bespoke tariff for roaming that is not available to individual customers.

Note: Charges must exclude VAT and be indicated to 3 decimal places
