Trends in telecommunications prices¹

Summary

- In July 2017, telecommunications prices in Portugal¹ were unchanged from the previous month (-0.05% in July 2016).

In year-on-year terms, the increase in prices (3.40%) was the 7th highest among the sectors of the Portuguese economy.

On average annual terms, prices increased by 2.67%, 1.58 percentage points over inflation (1.10%). The increase in prices was the 10th highest among the 43 products/services considered.

Since January 2014, telecommunications prices¹ have been increasing at average annual rates above the rate of change reported in CPI.

- On average annual terms, Portugal was the EU country with the fifth highest increase in prices in July 2017. On average, telecommunications prices¹ in the EU fell by 0.47%.

Since March 2011, telecommunications prices¹ have increased more in Portugal than in the EU.

¹ Telephone, telegraph and telefax services" sub-index of the Consumer Price Index (CPI) and of the Harmonised Indices of Consumer Prices (HICP), which comprises voice, Internet and subscription TV (STV) services acquired on a stand-alone basis or as part of a bundle of services. Analysis of the prices presented in this report should be complemented by an examination of the characteristics of the offers; this information is available in the reports: "Electronic communications bundles", "Fixed telephone service and nomadic VoIP", "Mobile services", "Internet access service" and "Subscription television service", all available on ANACOM's website.

1. Trends in telecommunications prices¹ - July 2017
