

GLOSSARY	
This glossary	includes words, phrases and abbreviations used in the questionnaire
active subscriber (mobile networks questionnaire)	is subscriber of post-paid mobile telephony who has a valid contract, or a pre-paid subscriber who has made or received a call, sent an SMS or MMS or used data services at least once in the last 3 months. M2M-subscriptions and data only SIM cards should be excluded in all the sections of the questionnaire. SIM cards which are used at fixed location should be excluded of data reporting if the devices are expected to use only fixed wireless broadband access.
Subscriber (fixed networks questionnaire)	any natural person or legal entity who or which is party to a contract with the provider of number-based interpersonal communications service for the supply of such services from a fixed location.
consumer	The term "consumer" is defined for the data collection purposes in Article 2 of Directive (EU) 2018/1972 and means natural persons who use or request electronic communication services for purposes outside his/her trade, business, craft or profession.
business	The indicator "business" covers natural persons/legal entities who use or request electronic communication services for purposes of trade, business, craft or profession.
intra-EEA communications	means any number-based interpersonal communications service originating in the EEA Member State and terminating at any fixed or mobile number of the national numbering plan of another EEA Member State. The indicator covers both consumers and business subscribers (if business indicator is applicable) and any type of tariff (consumption based, bundle etc.) if applicable.
regulated intra-EEA communications	means any number-based interpersonal communications service provided to consumers originating in the EEA Member State and terminating at any fixed or mobile number of the national numbering plan of another EEA Member State, and which is charged wholly or partly based on actual consumption. Indicator covers all intra-EEA metered tariffs offered to consumers. *For the purposes of this data collection, when referring to intra-EU communications it also includes communications to and from Iceland, Liechtenstein and Norway)
price regulated intra-EEA communications	means any number-based interpersonal communications service provided to consumers originating in the EEA Member State and terminating at any fixed or mobile number of the national numbering plan of another EEA Member State, and which is charged wholly or partly based on actual consumption in accordance with Article 5a(1) of the TSM Regulation. For the purposes of the current data collection, metered tariffs offered to consumers should be reported under this indicator. *For the purposes of this data collection, when referring to intra-EU communications it also includes communications to and from Iceland, Liechtenstein and Norway)
Alternative tariff	Alternative tariffs cover regulated intra-EEA communications and non-EEA communications. Alternative tariffs refer to the tariffs described in Article 5a(2) of the TSM regulation. Under this indicator only intra-EEA communications tariff component should be reported.
Rest of the World	means any number-based interpersonal communications service originating in the EEA Member State and terminating at any fixed or mobile number of the national numbering plan outside of EEA area Indicator covers consumers and business subscribers (if business indicator is applicable) and any type of tariff (consumption based, bundle, RoW component of alternative tariffs etc.) if applicable.
