

How to help Stakeholders?

ENISA-ANACOM Workshop *Risk and Innovation*

Lisbon, 22 January 2010

Dr. L. Marinos, ENISA

Support in the area of Risk Management

- **Products:** Development of an approach
- **Process/Operations/Governance:** Good practice
- **IT:** Inventories, good practices, assessment reports, tools
- *Services*
- *Organisation*

Product/New developments

- An approach to Emerging and Future Risks
- An infrastructure to assess them
- A process to select areas to be analysed

Helping to...

- Identify security risks in early design phases
- Find information on risks, threats, vulnerabilities

<http://www.enisa.europa.eu/act/rm/emerging-and-future-risk>

Process/Operations/Governance

- Good practice on Risk Management integration (operations, governance)
- Measure of Risk Management (Benchmarking)
- Consolidation of Risk Management and Continuity Management standards

Helping to...

- Understand and apply integration
- Measure/compare
- Understand the how and what

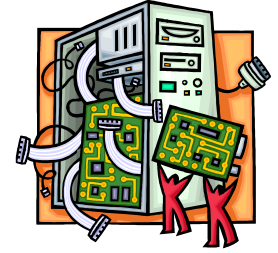

<http://www.enisa.europa.eu/act/rm/cr/business-process-integration>

<http://www.enisa.europa.eu/act/rm/cr/bcm-resilience>

http://www.enisa.europa.eu/act/rm/files/tools/sarm-final_draft.pdf

IT

- Inventories of existing methods and tools
- Assessment reports on new technologies
- Approaches for SMEs
- Online tools

Helping to...

- Disseminate existing practices
- Understand the risks of new (emerging) technologies
- Disseminate knowledge
- Use cost effective simplified approaches

<http://www.enisa.europa.eu/act/rm/cr/risk-management-inventory>

<http://www.enisa.europa.eu/act/rm/cr/bcm-resilience>

http://www.enisa.europa.eu/act/it/oar/cloud-computing/Cloud_Identity_Hogben.pdf

<http://www.sme-security.eu>

<http://www.enisa.europa.eu/act/rm/files/tools/sarm-2009-05-10.xls>

What next?

- Identify and analyse emerging applications/technologies
- Support Member States
- Disseminate knowledge
- Collect input...

Thank you...
