

Annex 2

Network access obligations

Specific obligations	Dates	Linked companies	Remarks
Network access			– MVNO agreements benefit entities without spectrum;
Allow network access (in all frequency bands) under non-discriminatory conditions, accepting the negotiation of the following types of agreements:			– New entrants acquiring spectrum in the auction benefit from national roaming agreements. By entering into these agreements, new entrants are subject to a mobile coverage obligation (30 Mbps minimum debit) of 25% and 50% of the nation's population, respectively, within three and six years of signing the agreement;
MVNO (in its various forms), an obligation remaining effective so long as the frequency usage rights are valid:			– National roaming agreements only apply in geographic zones where the beneficiary has no local coverage through the use of assigned frequencies;
National roaming, an obligation which lasts for ten years; after eight years of being in effect, the need for the obligation's continuance and its respective terms will be evaluated	Immediate	Companies with 2 x 10 MHz in the 700 MHz band or a minimum of 50 MHz in the 3.6 GHz band, and currently having rights for the spectrum designated for electronic communications services	– New entrants acquiring spectrum in the auction benefit from national roaming agreements.
