

Antonio Fernández-Paniagua DÍAZ-FLORES

He received his Telecommunication Engineer Degree at the Polytechnique University of Madrid and he has spent most of his career within the Spanish Public Administration where he has held different managerial positions at the Directorate-General of Telecommunications.

Since 2004 he has been **Deputy Director, Radio Spectrum Planning and Management**, at the State Secretary of Telecommunications and Information Society in the Spanish Ministry of Industry, Tourism and Trade. Previously, he was Deputy Director for Promotion and Standardization of Telecommunications Services and Deputy Director for Infrastructures and Technical Standards.

He is currently a member of the Radio Spectrum Committee, the Radio Spectrum Policy Group, the DVB Steering Board, and he is also a member of the Spanish Advisory Council for Telecommunications and information Society.

He was Head of the Spanish Delegation at the World Telecommunication Standardization Assemblies in 2000 and 2004, at the Regional Radiocommunication Conference 2006, and at the World Radiocommunication Conference 2007.
