

Annex IV – Graph index

Graph 1. Local loop monthly fee (full access) – EU15 comparison	14
Graph 2. Local loop installation fee (full access) – EU15 comparison	15
Graph 3. Evolution in the amount of local loops.....	16
Graph 4. Evolution in the amount of switchboards with co-installed operators.....	17
Graph 5. Annual price of 64 Kbits digital lines in Europe	21
Graph 6. Annual price of 2 Mbits digital lines in Europe	22
Graph 7. Annual price of 34 Mbits digital lines in Europe	22
Graph 8. Evolution in the average interconnection prices.....	24
Graph 9. Comparison of the average price per minute for a three-minute call from the prices in force in RIO 2006 and in RIO 2007 with EU's current practices.....	25
Graph 10. Information submitted by PTC on analogue access with the activated SLRO, excluding Grupo PT's companies' activations.....	30
Graph 11. Evolution in the fixed-to-mobile termination prices.....	33
Graph 12. Average fixed-to-mobile termination prices – July 2006	34
Graph 13. Percentage of mobile numbers ported versus the overall MTS customers.....	51
Graph 14. Percentage of ported fixed numbers versus the total of main telephone accesses (cumulative values until the end of 2005).....	51
Graph 15. Evolution in nominal terms of FTS prices for residential customers (base year =1998).....	58
Graph 16. Evolution in real terms of SFT prices for residential customers (base year = 1998).....	59
Graph 17: Evolution of PTC's retail prices in the fixed-mobile calls (in Euros cents, without VAT).....	60
Graph 18. Evolution in real terms of the basic tariff (1993 = 100): normal and priority mail, national	76
Graph 19. Basic tariff of the domestic priority mail.....	77
Graph 20. Basic tariff of the domestic non-priority mail	78
Graph 21. Overall Quality of Service Indicator (OQSI)	81
Graph 22. Communications from CTT in the scope of Basis XX, no. 4 of the Concession	82
Graph 23. Evolution in the amount of postal stations.....	82

Annex IV – Table index

Table 1. Evolution in the prices of the “Rede ADSL PT” offer with IP aggregation	20
Table 2. Prices per minute in 2006, based on a three-minute call (figures in euro cents, VAT excluded) – tariff applied per second after the first second.....	23
Table 3. Time limits set by the RCAO	32
Table 4. Geographic and non-geographical numbers – evolution of the national situation	49
Table 5. Audiotext numbers evolution of the national situation.....	50
Table 6. US quality of service parameters	54
Table 7. Amount of public payphones foreseen by PTC for 31 December 2006	56
Table 8. Maximum values established for retention (in Euro cents)	59
Table 9. Comparison of the QSI defined in the 2006 Price Convention and in the 2004-2005 Price Convention.....	79

Annex IV – Figure index

Figure 1. Location of switchboards where OSPs enjoy the LLU (end of 2006).....	17
Figure 2. Location of switchboards with DSLAM (digital subscriber line access multiplexer) and subscribers (3 rd quarter of 2006).....	20
