

Xavier MERLIN

Head of international affairs – Information Society and technologies Service

Within the French ministry of Economy, industry and employment, Xavier MERLIN is head of international affairs of the **Information Society and Technologies service** (STSI).

As such, he is responsible for European affairs, and particularly for the French presidency of the EU as far as electronic communications are concerned. His unit also overlooks multilateral issues (within CEPT, ITU, WTO, etc.) and is in charge of bilateral cooperation with third countries in the ITC field.

Previously, he has been director of European and international affairs at the **National Center for Cinema** (2002-2008), and **advisor to the Minister for culture and communication** (2000-2002) for European affairs. He started his career as an expert in audiovisual and telecommunications at the Ministry of Economy, finance and Industry (1996-1998).

He graduated from Ecole Polytechnique in 1994 and specialized in telecommunications afterwards.
